Agency: CDPHE

Purpose of Contact: Building 771 DOP Field Modification

Discussion

Two minor clarifications to the *771 Closure Project Decommissioning Operations Plan (DOP)* were discussed with Ms. Onyskiw. Specifically, the decommissioning approach associated with the infinity room (Room 141) and stack demolition. Room 141 will be decontaminated/removed while the shell of Building 771 remains. Stack demolition will occur consistent with approach described in the 771 DOP and WCP-091. WCP-091 will be made available to CDPHE for review. The description of activities associated with the layover area was removed from the 771 DOP. The layover area will be prepared as necessary to support demolition activities. The updated language will be transmitted to CDPHE and EPA as part of the next minor or major modification to the 771 DOP.
